The roll of the Senate was called and the President pro tempore of the Senate announced a quorum present.

The President pro tempore of the Senate announced a quorum present of the joint bodies.

Governor Robertson was presented by the President pro tempore, and delivered the following message:

GOVERNOR'S MESSAGE.

To the Members of the Eighth Legislature:

By virtue of the power vested in me by the Constitution, I have convened you in extraordinary session for the purpose of considering matters which are of vital importance to the people of the State and which were not cared for during the late regular session.

It is now a matter of no concern to the people of the State why the necessary business of the State was not disposed of at the regular session. The fact is that it was not, and that alone is the reason for your return, and, it seems to me, that it is time for us all to quit giving excuses or offering explanations as to the failure to properly care for the business of the State at the regular session. We should realize that a patriotic duty confronts us and that it must be promptly performed. Let bygones be bygones and let us go to work and attend strictly to the business which we were chosen by the people to look after.

That there will be honest difference of opinion on the various phases of State business, no one will deny, but we should approach this duty in a spirit of fairness and give due consideration to the views of each other, and recognize that all legislation is largely the result of compromise. Unless we enter upon our work with that spirit, we cannot hope for a successful conclusion.

I have every reason to believe that the members of

this body have returned to their labors imbued with this idea and I trust that no time will be lost in reorganizing and getting down to work and that the session may be brief and inexpensive.

Under the provisions of the Constitution, no subject can be considered in an extraordinary or special session except such as the Governor may recommend for consideration, and, under that provision of the Constitution, I beg leave to call your attention to the following subjects, to-wit:

APPROPRIATIONS.

No provision has been made by the Legislature for the expense of the Executive, Legislature and Judicial Departments of the government for the next biennium; this includes not only the expenses of the various State Departments, but every other agency of the State as well. Provision must be made by you for the maintenance and support of all State schools, all penal, eleemosynary, charitable, custodial and other institutions of the State which have been authorized by law. In this connection, I call your attention also to the fact that many of the departments and State institutions require emergency deficiency appropriations in order to efficiently operate until June 30th, next, the end of the fiscal year.

Since the adjournment of the regular session, two incidents have occurred which will call for additional appropriations for the Attorney General's Department. The first is the favorable decision by the Supreme Court of the United States in the Red River case, whereby the State has established as its southern boundary the south bank of the Red river as fixed by treaty between Spain and the United States in 1819. The fact that Oklahoma was successful in

the Red River case serves to emphasize the importance of sufficient appropriations to take care of the enormous amount of work that the State will be compelled to perform in adjusting the conditions that will necessarily arise. The permanent line between the two States will now have to be delineated and established and the claims of the State in and to the land recovered by the decision will have to be litigated, and this will involve much expense.

The other incident is the unfavorable decision of the District Court of Stephens County in a certain case wherein a lessee of school land claimed the mineral right in the land to the exclusion of the State. This case, in itself, might occasion no great outlay of money were it not for the fact that a large number of school land lessees, for the past ten years or more, have been asserting the same right to tracts in other parts of the State, and, until this decision can be appealed and definitely settled, we have every reason to believe that a large number of similar cases will be instituted. This calls for prompt and vigorous action on the part of the State through the office of the Attorney General.

I believe the Attorney General should be given a contingent fund of not less than \$75,000 each year for the next biennium for the purpose of protecting the interests of the State in these and other important cases that may arise.

I therefore submit, for your consideration, the entire subject of appropriations, and trust you will give the same your earnest and patriotic consideration.

SOLDIERS' RELIEF.

In my message to the Eighth Legislature, delivered January 4th, last, I called special attention to the needed legislation for hospitals and other facilities for disabled

ex-service men. Nothing has been accomplished in that direction, and I renew my recommendation for proper facilities to meet the ever-increasing demands that are being made upon the State by our soldiers, and I hereby submit the entire subject of soldiers' relief to you in the hope that you will speedily enact the necessary legislation that will enable the State to repay, to the best of its ability, the debt of gratitude it owes to our soldier boys.

In conclusion, permit me to say that I can see no good reason why this session should not be completed in a week or ten days. The people are expecting the session to be brief, and I shall use my best endeavors to assist you in expediting business to the end that an early adjournment may be had.

On motion of Senator Coyne, the joint session was dissolved.

The Senate reconvened in the Senate chamber, the President pro tempore presiding.

Senator Hill introduced the following resolution, which was read:

The following message from the Governor was read:

TO THE HONORABLE, THE PRESIDENT, AND MEMBERS
OF THE SENATE:

Several members of your honorable body have spoken to

me with reference to my message submitting the subject of appropriations and have requested that I make my language more explicit.

When I submitted, for the consideration of the Legislature, the subject of appropriations, I used the following language: "I therefore submit for your consideration the entire subject of appropriations and trust you will give the same your earnest and patriotic consideration."

I had in mind, when I used that language, the opening up of the entire subject, and, as an incident connected therewith and, as I believed, fully germane to the subject of appropriations, everything that was necessary to the efficient management of the Executive, Legislative and Judicial Departments, including every agency of the State. I did not desire to compel the Legislature to adopt my judgment as to what items would be necessary, believing it to be best to permit the Legislature to exercise its own judgment as to what is, or what is not, necessary.

I did have in mind, however, that if, in the judgment of the Legislature, it was essential to construct additional buildings or to make necessary repairs, it would proceed to the discharge of that duty under the subject as submitted in my message. I did not intend to recommend nor to open up for consideration of the Legislature a general building program; I do not believe that such a program is necessary, yet I did expect the Legislature to think that if any of our institutions needed immediate relief, it would use its good judgment and supply those needs.

And if there is any doubt in the mind of the Legislature as to its jurisdiction and authority in that respect, I hereby refer to my message and ask that it be considered in the light of the foregoing statement.

Respectfully,

J. B. A. ROBERTSON, Governor.

Senator Holloway was recognized on a question of personal privilege and made the following remarks:

Mr. President and gentlemen of the Senate, I arise upon this occasion to a question of personal privilege. I do so for the purpose of expressing to the Senate and to the people of this state my resentment and disapproval of a certain House resolution which was introduced a few days ago in the House of Representatives. In brief, this resolution provided for an appropriation of one-half million dollars for the purpose of building a pipe line from McCurtain County to Oklahoma City through which might be conveyed to the Capitol City the liquid products which were supposed to be manufactured in that section of the state. This resolution purported to be the act and deed of Representative Dyer of McCurtain County, Representative Stovall of Choctaw County and several other members of the Honorable House of Representatives. I wish at this time to publicly exonerate Representatives Dyer and Stovall of being connected with the preparation or introduction of this resolution. I am reliably informed by both of these gentlemen that the said resolution was introduced without their knowledge or consent. I believe I should make this statement so that the good people of McCurtain County will attach no blame to the conduct of these distinguished gentlemen.

I know that the members of the Senate and the House of Representatives understand full well the jocular spirit in which that resolution was conceived and introduced, but now what is the result of it? The Associated Press and the other news agencies of the state and Nation have carried the contents of this resolution as a news item and it has been published in a large number of papers of this and other states, and, therefore, you can very readily see what a grave injustice it has done or may do for McCurtain County. It gives the county an undeserved reputation abroad. Of course, you and I here fully understand the spirit of it but the people over this country do not compre-

hend its significance and spirit, and some of them may think that McCurtain County is entitled to such a reputation. I desire to state here publicly on the floor of the Senate to the members of the Senate and to the people of Oklahoma that I deeply resent the introduction of this resolution and the insinuations which it contains. I desire to state further that it is manifestly very unfair to the good citizenship of Southeastern Oklahoma, and more particularly to the splendid citizenship of the great County of McCurtain.

Gentlemen of the Senate, I wish you to understand that McCurtain County is made up of that excellent type of manhood and womanhood which came to Oklahoma in the early day as civilization wound its course Westward, and that sturdy citizenship made the great State of Oklahoma what it is today. I want to say to you further that McCurtain County is truly and without question one of the greatest counties of this state. From the standpoint of area it ranks third in the state. From the standpoint of population it has approximately forty thousand people. Further, from any standpoint from which you may consider our progress and development in Oklahoma it stands in the front line as an integral part.

As a citizen of that section of the state, and as one who has the honor of representing in the Senate that district of which McCurtain County is a part, I deeply resent the insinuation that we are a lawless people, and that we do not stand for law enforcement and good government. Those of you who have had the privilege of being there know full well that there is no place to which you may go where you will receive a more hearty welcome or greater hospitality from a citizen than you will in McCurtain County. Words fail me to sufficiently express my keen regret at the introduction of such a resolution as this. However, I will be charitable enough to say that those who are really responsible for its introduction, I believe, did not contemplate the re-

sults that would inevitably come in the minds of the people in other parts of this state and adjoining states. I trust that the newspapers will be kind enough to explain the spirit in which it was introduced for the reason that the people from that county and that section of the state are entitled to be known and heralded in their true light.

McCurtain County is truly one of the greatest agricultural counties of the state and likewise has other wonderful opportunities and possibilities. It may be news to some of you to know that approximately 60 or 70 per cent of the lumber that is produced from the entire state comes from McCurtain County and its wonderful resources along other lines are just beginning to be developed. In a few years I am confident that the people of Oklahoma will appreciate that section of the state as it really is. It is a vast empire of untold wealth and opportunities. Already there is a marvelous increase and influx of population there because people far and wide are beginning to understand and be better informed of the wonderful possibilities it affords.

Therefore, Mr. President and gentlemen of the Senate, I simply desire at this time to arise to a question of personal privilege to express to you and the people of this great state my hearty disapproval of the perpetration of jokes in the Legislature and particularly such a joke as this resolution introduced in the House of Representatives. I think it is a grave error to permit such a procedure at any time. You and I may understand the surroundings and the spirit of it, but the people of the state, Mr. President, do not understand it and then the inevitable harm results. I trust sincerely that the good people of McCurtain County will not feel that there is any feeling in the Legislature of this state against them or that they have the reputation here or anywhere else of being moonshiners, murderers and law breakers. Gentlemen of the Senate, the people of that county without reservation stand for and desire law enforcement.

They stand for the highest and best that there is in American citizenship, and their splendid record in the past fully justifies me in making this statement to you.

I thank you sincerely for your consideration of my remarks and your kind attention, and I trust that wherever you go you will do what you can to correct whatever erroneous impression there may be anywhere in this state or elsewhere as a result of this unfortunate resolution.

The following messages from the Governor were read:
To the Members of the Eighth Legislature:

The evident intent of House Bill No. 222, passed at the regular session of the Eighth Legislature, was to provide an expedient for the saving of large sums of money to be received as Federal aid in certain road projects in various counties of this state.

Since said bill became a law, it has been ascertained that its provisions are ineffectual and there is grave danger of the state losing many hundreds of thousands of dollars because of the inability of certain counties to sell their bonds at par.

I have been importuned by County Commissioners, Commercial Clubs and public spirited citizens to submit this subject to the Legislature for the re-enactment of an Act that would cure the defect complained of. I have been assured by leading members of both houses that it is the desire of a large majority of the Legislature to provide a remedy, and on those representations alone I am submitting hereby the subject relating to issuance and sale of road and bridge improvement bonds.

Respectfully,

J. B. A. ROBERTSON, Governor.

To the Members of the Eighth Legislature:

I submit for your consideration the subject of leasing, for oil and gas purposes, the real estate owned by the various counties and municipalities in this state.

Some counties own real estate that is now very valuable for oil and gas purposes, but the condition of the law is such as to render the legality of such leases doubtful.

Respectfully,

J. B. A. ROBERTSON, Governor.

To the Members of the Eighth Legislature:

I am reliably informed that the condition of the dockets in the Twenty-fourth Judicial District, composed of Osage and Washington Counties, is such as to require an additional Judge, owing to the immense amount of litigation arising from Indian and Oil and Gas cases, and I am submitting the subject to you to determine whether or not an additional Judge is needed in that district.

Respectfully,

J. B. A. ROBERTSON, Governor.
